  - DAV Model School, Sector 15, Chandigarh

# Curriculum Aligned Competency Based Test Items

## Class 7

### Foreword

The National Education Policy (2020), Government of India, envisions transforming school education by equipping students with 21st century skills. The endeavour is to shift focus from rote-learning to acquisition of competencies with a resolve to make education more meaningful and relevant.

The Central Board of Secondary Education (CBSE) in its continuous endeavour to improve the quality of education has already introduced some initiatives in this direction. Strengthening these efforts, the Board had signed an MoU with Sri Aurobindo Society (SAS), Pondicherry in November 2019. As a part of this initiative, SAS is supporting CBSE to develop resource materials, train teachers and take other measures that would facilitate adoption of Competency Based Education in schools. SAS has engaged with Australian Council for Educational Research (ACER) as its knowledge partner for this project.

CBSE, in collaboration with SAS and ACER, has prepared this resource material- ***Curriculum Aligned Competency Based Test Items (Class 7)*** in February, 2022 which is a compilation of assessment items in Mathematics that are aligned to the NCERT/CBSE curriculum. These tasks based on authentic real life situations focus on developing critical understanding among learners in the discipline. Each test covers about 10 questions from a chapter. The assessments, useful for students' practice, are also exemplars for teachers who with their ingenuity can develop many similar items.

— Team CBSE

## About CBSE

The Central Board of Secondary Education (CBSE) is a national Board under the Ministry of Education, Government of India. The Board has more than 27,000 schools affiliated to it in India and overseas, in 25 countries. These include the Kendriya Vidyalayas, the Jawahar Navodaya Vidyalayas, schools run by Central Government organizations such as The Army, Navy, Air Force etc., schools run or aided by the State Governments and independent private schools. The Board's mission is to encourage quality of education focussed on holistic development of learners. It motivates schools and teachers to adopt learner centric enquiry-based pedagogies and use innovative methods to achieve academic excellence. The Board is committed to providing a stress-free learning environment to develop competent and confident students who emerge as enterprising citizens of tomorrow, promoting harmony and peace in the world.

## About SAS

Sri Aurobindo Society (SAS) is an international, spiritual, and cultural, not-for-profit NGO. SAS has been recognised by the Government of India as a Charitable Organisation, a research institute and an institute of national importance. Sri Aurobindo Society has more than 300 centres and branches across the country, with its head office in Puducherry. SAS is setting up models, centers of excellence and training institutions that are sustainable, scalable and replicable in the country.

## About ACER

Australian Council for Educational Research (ACER) is a leading and pioneer international organization working in the field of competency based learning. ACER has been instrumental in coordinating a consortium of international organizations for the implementation of the Programme for International Students Assessment survey in 2000, 2003, 2006, 2009 and 2012.

### Class 7 – Chapter 1

### Integers

A funfair has activities for both children and adults. Activities can have group or pair or individual participation. The winner in an activity is decided on the basis of scores. For some activities there are penalties. Penalty points are subtracted from the scores.

This table below shows the details about the games and their scoring.

Game Name	Participation	Activity	Scoring/Penalty
Car Racing	Individual	Cars to race on a 4 metre wide, 1 kilometre long circular track. Flags are posted at an interval of 150 metres, on the track. Participants have to avoid the flags during the race.  	<b>Score points</b> The participant who reaches the finish line in the least amount of time gets 60 points 10 points are awarded for avoiding a flag.  <b>Penalty points</b> 10 points are deducted for knocking a flag down.
Trampoline Jumping	Individual	Jump 75 cm or more as many times as possible in 1 minute  	<b>Score points</b> 5 points for each jump more than or equal to 75 cm  <b>Penalty points</b> 2 points will be deducted for jumps below 50 cm.

<b>Archery</b> 	<b>Individual</b>	Shoot an arrow on a target board.	<b>Score points</b>  <b>Penalty points</b> 10 points will be deducted if the arrow does not hit the board.
<b>Paint ball (for adults only)</b> 	<b>Group</b>	Find a crown and hit opposite teams with a paint ball.	<b>Score points</b> 20 points for each paint ball hit on an opponent. 100 points for getting the hidden crown  <b>Penalty points</b> 10 points for each paint ball hit received
<b>Jumping Jack (for adults only)</b> 	<b>Pair</b>	Tie shoe laces with the partner and reach the destination without falling	<b>Score points</b> 50 points for reaching the destination Additional 10 points for reaching the destination first <b>Penalty points</b> 10 points for each fall

SAS21M07Q0101

- 1 Rohan and Samar compete in the car race.

Rohan's car knocked down five flags and Samar's car knocked down one flag. Rohan reached the finish line faster than Samar.

Who is the winner and how many points did he score?

Richa jumped 10 times in Trampoline jumping. Her jump heights (in cm) are given below.

First	Second	Third	Fourth	Fifth	Sixth	Seventh	Eighth	Ninth	Tenth
38	43	47	56	75	82	75	68	64	59

 Class 7 – Chapter 1

SAS21M07Q0102

- 2 Anshu says 'Rohit uses Angle-Side-Angle criterion for construction of triangle ABC'. Is Anshu correct? Justify your answer.
- 
- 

Jacob and Mariya participated in Archery.  
 Jacob's scores for five shots are given below.

First shot	Second shot	Third shot	Fourth shot	Fifth shot
0	4	8	10	6

Mariya's scores for three shots are given below.

First shot	Second shot	Third shot
0	4	8

Mariya won the competition.

SAS21M07Q0103

- 3 How much she did score in her fourth and fifth shots?
- 
- 

SAS21M07Q0104

- 4 Team Alpha and Beta played the Paint Ball game. Each team had 6 members and each member shot the paint ball three times.  
 Team Alpha hit the opponent team 12 times. Team Beta hit the opponent team 15 times.  
 Which team got more penalty points and how many penalty points did they get?
- 
- 

SAS21M07Q0105

- 5 In another match, each member of team Alpha got hit 3 times.  
 4 members hit back 5 times each and the rest hit back 2 times each.  
 Which calculation shows the team's score?

- A.  $6 \times [3 + (-10)] + 4 \times (5 + 20) + 2 \times (2 + 20)$
- B.  $6 \times [3 \times (-10)] + 4 \times (5 \times 20) + 2 \times (2 \times 20)$
- C.  $6 + [3 + (-10)] + 4 + (5 + 20) + 2 + (2 + 20)$
- D.  $6 + [3 + (-10)] + 4 + (5 + 20) + 2 + (2 + 20)$

### Class 7 – Chapter 2

### Fractions and Decimals

Shalini, Amber and Anant have dinner together. The bill for the dinner is Rs 3277.50. They divide it among themselves.

SAS21M07Q0201

- 1 Shalini pays first, she rounds her share amount to the nearest tens.  
Amber pays next, he rounds his share amount to the nearest rupees.  
The remaining amount is paid by Anant.  
What is the amount paid by Anant?

---

---

SAS21M07Q0202

- 2 They have some starters, some drinks and the main course in the dinner.  
One-third of the bill was for drinks and one-fifth for starters.  
What amount is paid for the main course?

- A. Rs 409.68
- B. Rs 1092.50
- C. Rs 1529.50
- D. Rs 1748.00

SAS21M07Q0203

- 3 During the dinner, they have six glasses of drinks. Amber has one-half of them and Shalini has one-third of them. Anant has rest of them.  
How many glass/es does Anant have?

---

---

Insulin is a hormone made by the pancreas in the human body. It helps to regulate blood sugar level and absorbs glucose to get energy. The number of required units of insulin varies according to the individual.

In some cases, an individual body is not able to produce sufficient amount of insulin. For those individuals, supplementary units of insulin are injected into the body.

SAS21M07Q0204

- 4 A doctor uses this formula to calculate the daily insulin units required for Prakhar's body.

$$\text{Daily insulin requirement (units)} = 0.55 \times \text{Total body mass (kilograms)}$$

Prakhar's body mass is 80 kg.

What is Prakhar's daily insulin requirement?

---

---

SAS21M07Q0205

- 5 Insulin also helps in disposing of carbohydrates in the human body.

In Prakhar's body, 14.5 insulin units dispose of 290 grams of carbohydrate.

How many grams of carbohydrates are disposed of by 1 insulin unit?

- A. 200
- B. 20
- C. 2
- D. 0.2

An online game has 50 levels. A gamer is in the Gold team until he crosses  $\frac{3}{4}$  of the total levels. After that he is in the Platinum team.

This table shows the rewards unlocked after completing various levels.

Levels completed	Rewards
More than or equal to $\frac{4}{5}$ levels	Jeep
More than $\frac{3}{5}$ levels but less than $\frac{4}{5}$ levels	Dress
More than $\frac{2}{5}$ levels but less than $\frac{3}{5}$ levels	Face mask
More than $\frac{1}{5}$ levels but less than $\frac{2}{5}$ levels	Badge

SAS21M07Q0206

- 6 Mita completed 37 levels.

Which reward would she get? Justify your answer.

---

---

SAS21M07Q0207

- 7 Mayank is at level 15 in the game. In which team, would he play?

---

---

Carat (K) is a unit to measure the purity of gold. The higher the carat, the purer the gold. 24K gold is considered as the purest gold with no traces of any other metal in it.  
 22K gold has 2 parts other metals present in it.

SAS21M07Q0208

- 8 Puneet is a jeweller. He wants to make 18K gold jewellery from 22K gold. What percent of other metals are to be added to the 22K gold?

---

---

SAS21M07Q0209

- 9 Countries have their own minimum acceptance standard for an item to be called a gold item. The minimum accepted standard of gold is 10 carat in the US and 8 carat in Denmark. What is the difference in percentage of gold between the standards set by the two countries? Round your answer to the nearest whole number.

---

---

The Bureau of Indian Standards (BIS), certifies the purity of gold jewellery using hallmark codes. The BIS hallmark codes for gold jewellery are given below.

Hallmark code	Purity of gold jewellery (Carats)
22K916	22
18K750	18
14K585	14

SAS21M07Q0210

- 10 Riya purchased a gold necklace weighing 20 g hallmarked 18K750. How many grams of pure gold are in the necklace?

---

---

### Class 7 – Chapter 3

### Data Handling

Gaming apps allow users to download and play games in online or offline mode. A play store data shows 20 million downloads of 6 popular games. The table below shows the number of daily active users of the games:

Game	Active users (in millions)
KC	2.07
RJ	1.99
CM	1.82
SN	1.56
CR	1.34
HC	1.20

SAS21M07D0301

- 1 Around 50% of those who downloaded the games are active users.  
Is the statement correct? Give reason to justify your answer.

---

---

SAS21M07D0302

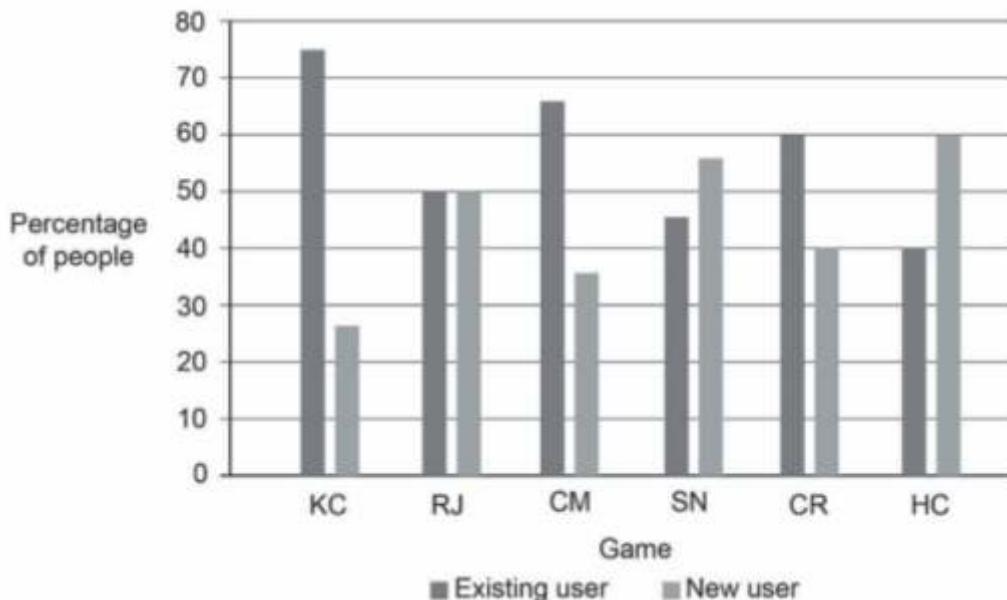

- 2 Every fourth person who downloaded the games spends more than an hour a day playing them.  
What percentage of active players play more than an hour a day?

---

---

The graph below shows the percentage of new and existing active users of the games.

SAS21M07D0303

3 In which game the number of existing active users is more than 1.5 million?

- A. KC
- B. RJ
- C. CM
- D. CR

SAS21M07D0304

4 For which game(s) the number of new users is more than the number of existing users?

---

---

SAS21M07D0305

5 It has been observed that 50% of the new RJ game users play online with friends. For existing users, this percentage is 36%. What is the number of people (in millions) playing RJ game online with friends?

- A. 1.39 millions
- B. 4.975 millions
- C. 8.557 millions
- D. 9.95 millions

SAS21M07D0306

- 6 Mary played 10 HC matches. She scored 45, 36, 50, 27, 36, 52, 50, 43, 50 and 47 points in them. What is the most frequent score point?

- A. 27
- B. 36
- C. 47
- D. 50

SAS21M07D0307

- 7 Are the mean and median of Mary's scores equal? Justify your answer.

---

---

SAS21M07D0308

- 8 Mary scored 56 points in her 11th match. What is the change in her mean score after the 11th match?

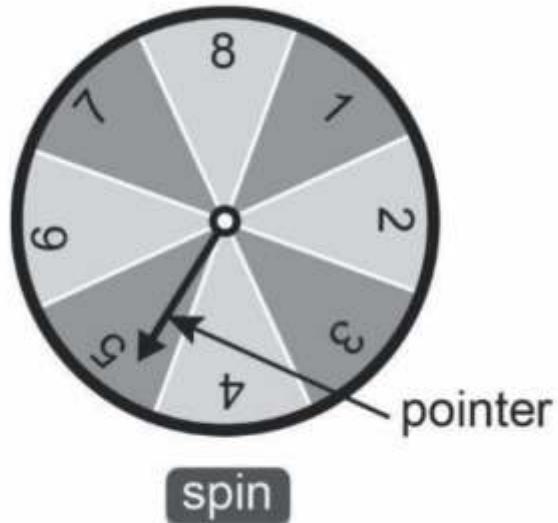

- A Increases by 1.13
- B Increases by 5.6
- C Decreases by 4
- D Decreases by 3

SAS21M07D0309

- 9 The highest score in the match is 60 points.  
What is the probability of Mary scoring 60 points in her 12th match?

- A. 0
- B.  $\frac{1}{12}$
- C.  $\frac{1}{5}$
- D.  $\frac{1}{2}$

During the HC game, players can spin the wheel to earn points.

SAS21M07D0310

10 What is the probability that she earns 6 points?

- A. 0
- B.  $\frac{1}{12}$
- C.  $\frac{1}{5}$
- D.  $\frac{1}{2}$

### Class 7 – Chapter 4

### Simple Equations

Multiple gaming tournaments can be played online. In these games, players can compete with players from any part of the world.  
In a tournament, 200 points are awarded for a win and 20 points are deducted for a loss.

SAS21M07C0401

- 1 Chetan participated in the tournament.  
He won two more matches than the number of matches he lost.  
He scored 1120 points.  
How many matches did he play?
- A. 6  
B. 8  
C. 10  
D. 14

SAS21M07C0402

- 2 Diksha played 16 matches in the tournament. The number of matches won was equal to the number of matches lost by her.  
How many points did she score?
- 
- 

SAS21M07C0403

- 3 Drishti and Raghav also participated in the tournament.  
Drishti won 10 more matches than the number of matches she lost. Her score was 6140 points.  
Raghav lost 15 more matches than the number of matches he won. His score was 6000 points.  
Who played more matches? Justify your answer.
- 
-

## Curriculum Aligned Competency Based Test Items

 Class 7 – Chapter 4

SAS21M07C0404

- 4 Prashant says, 'The more you play, the more you score'. Is his statement always true? Justify your answer
- 
- 

SAS21M07C0405

- 5 In a tournament, some hurdles have to be crossed to achieve the target score of 110 points.  
 In a match, Shreyas crossed 18 hurdles and scored 45 points.  
 Shreyas wants to win the tournament.  
 What is the minimum number of hurdles that have to be crossed?
- 
- 

SAS21M07C0406

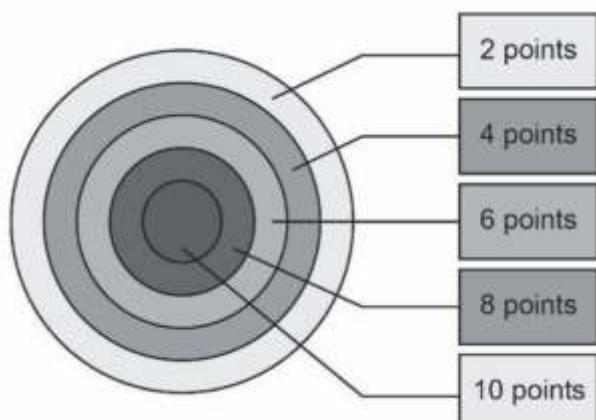

- 6 Does the solution of an equation depend on the method used to solve it? Justify your answer.
- 
- 

Which of the following represents an equation in one variable?

SAS21M07C0407

- 7
- A.  $5p + 3$
  - B.  $4 + 2a$
  - C.  $5 + 7 = 12$
  - D.  $5 + 4x = 9$

In an archery game, the points scored on hitting a circular region on a board is shown in the figure below.

No point is given when an arrow missed the board. Sharmistha scored only 6 or 4 points in a game. The number of times she scored 6 is five more than the number of times she scored 4. She scored 80 points in the game.

SAS21M07C0408

**8** Which of the following equation represents Sharmistha's score?

- A.  $6x + 4x = 80$
- B.  $6x + 4(x + 5) = 80$
- C.  $6(x - 5) + 4x = 80$
- D.  $6x + 4(x - 5) = 80$

SAS21M07C0409

**9** How many arrows did Sharmistha shoot?

- A. 10
- B. 11
- C. 15
- D. 30

SAS21M07C0410

**10** Which of the following equations does ' $x = 5$ ' not satisfy?

- A.  $2x - 1 = 9$
- B.  $3x + 4 = 19$
- C.  $3x + 1 = 13$
- D.  $4x - 3 = 17$

### Lines and Angles

In the figure given below, AD is a straight line. PS and QR are perpendicular to AD. GH is parallel to IJ and KL is parallel to MN.

SAS21M07S0501

1 What type of angles are  $\angle r$  and  $\angle t$ ?

- A. Adjacent angles
- B. Vertically opposite
- C. Corresponding angles
- D. Alternate exterior angles

SAS21M07S0502

2 The measure of  $\angle s = 120^\circ$ .  
What is the measure of  $\angle t$ ?

- A.  $30^\circ$
- B.  $60^\circ$
- C.  $90^\circ$
- D.  $120^\circ$

SAS21M07S0503

3 What is the measure of  $\angle x$ ?

- A.  $45^\circ$
- B.  $60^\circ$
- C.  $90^\circ$
- D.  $120^\circ$

SAS21M07S0504

4 Why are the lines SP and RQ parallel to each other?

---

---

SAS21M07S0505

5 Is DF transversal to KL and MN? Give reason.

---

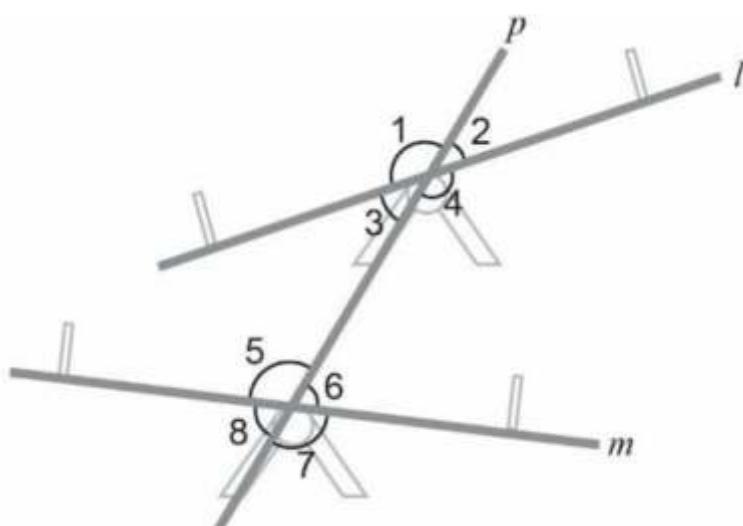

---

SAS21M07S0506

6 Which of the following is true for DE and DF?

- A. They are parallel
- B. They intersect at A
- C. They intersect at D
- D. They have AD as transversal

A diagram of a see-saw is given below.

SAS21M07S0507

- 7 State all the pairs of vertically opposite angles in the given figure.

---

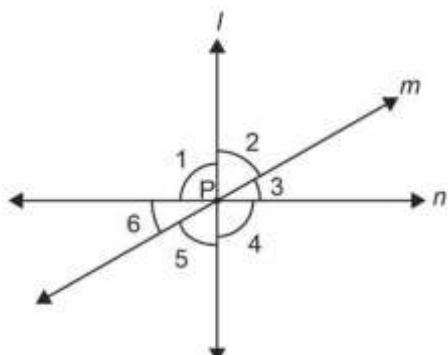

---

SAS21M07S0508

- 8 Which of the following is a pair of alternate exterior angles?

- A.  $\angle 1$  and  $\angle 4$
- B.  $\angle 2$  and  $\angle 8$
- C.  $\angle 3$  and  $\angle 8$
- D.  $\angle 4$  and  $\angle 6$

Three lines shown in the figure intersect each other at point P.

Line  $l$  is perpendicular to line  $n$ .  
 The measure of  $\angle 2$  is  $65^\circ$ .

SAS21M07S0509

- 9 What is the measure of  $\angle 6$ ?

---

---

SAS21M07S0510

- 10 What is the sum of the measure of  $\angle 3$  and  $\angle 4$ ?

- A.  $95^\circ$
- B.  $115^\circ$
- C.  $120^\circ$
- D.  $155^\circ$

## Mathematics

### Class 7 – Chapter 6

### The Triangle and its Properties

In an equilateral triangle ABC, the length of AC = 10 cm and altitude AD = 6 cm. P is a point on AB.

The length of BP =  $4x - 1$ . The length of PA =  $3x + 4$

SAS21M07S0601

**1** What is the length of BP?

- A. 1 cm
- B. 3 cm
- C. 5 cm
- D. 10 cm

SAS21M07S0602

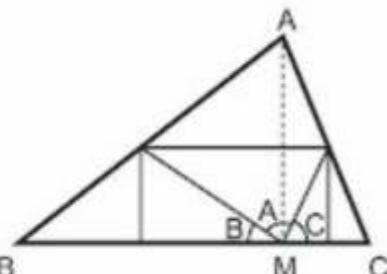

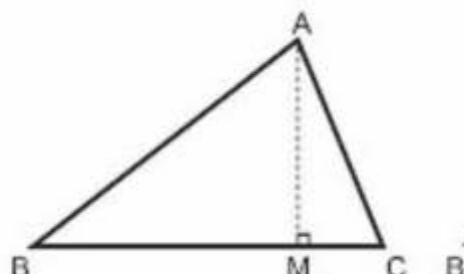

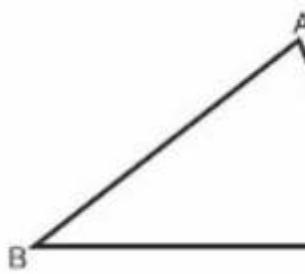

**2** What is the length of the median on BC?

- A. 3 cm
- B. 5 cm
- C. 6 cm
- D. 10 cm

Anshu cuts a paper triangle ABC.

He folds the paper perpendicular to BC such that it passes through the vertex A. He marks the point where the fold crosses BC as M. He unfolds the paper.

He again folds all the three corners such that vertices A, B and C touch M without overlapping.

Anshu's method

Radhika performs a similar activity. She marks M by folding  $\Delta ABC$  such that it halves the side BC. When she folds the three corners such that vertices A, B and C touch M, unlike Anshu, the paper corners overlap.

SAS21M07S0603

- 3 What can be the reason for overlapping?

---

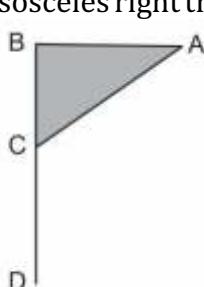

---

SAS21M07S0604

- 4 Why is the existence of a triangle with an exterior angle of measure  $180^\circ$  not possible?

Pratibha made a paper flag by pasting an isosceles right triangle on a stick.

SAS21M07S0605

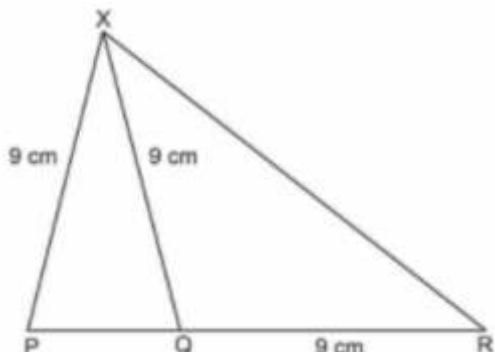

- 5 What is the measure of  $\angle ACD$ ?

---

---

In the figure shown below, PQR is a straight line.

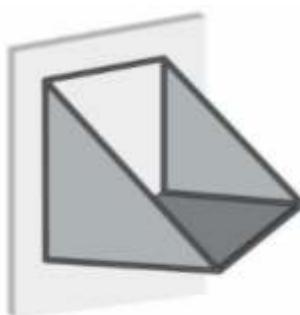

The measure of  $\angle PXQ = 20^\circ$ .

SAS21M07S0606

- 6 What is the measure of  $\angle PXR$ ?

A shelf with a triangular frame is fixed on a wall as shown below.

The lengths of the rods used in the shaded triangular frame are 48 cm, 55 cm and 73 cm.

SAS21M07S0607

- 7 What is the type of the shaded triangle?

- A. Obtuse triangle
- B. Isosceles triangle
- C. Equilateral triangle
- D. Right-angled triangle

SAS21M07S0608

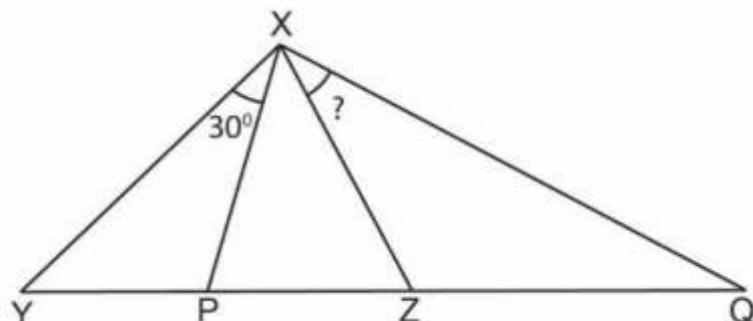

- 8 What can be the height of the shelf?

---

---

In the triangle XYZ, the median XP is half the length of the side YZ.  
 In the triangle XZQ,  $XZ = ZQ$ .

SAS21M07S0609

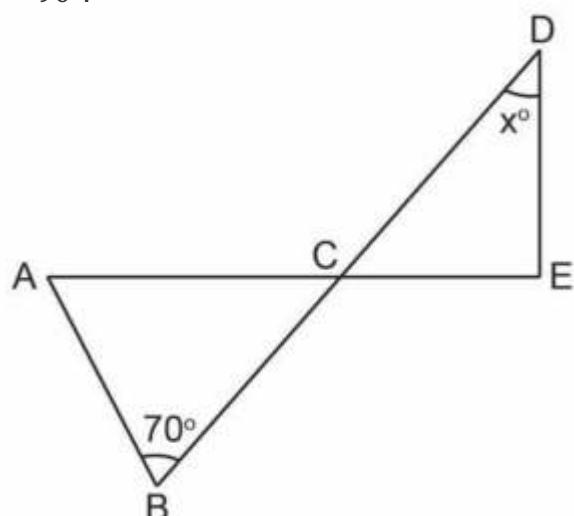

- 9 What is the measure of  $\angle ZXQ$ ?

---

---

In the triangle ABC below,  $AC = BC$ .  
 In the triangle DCE,  $\angle CED = 90^\circ$ .

SAS21M07S0610

- 10 What is the value of 'x'?

- A. 40
- B. 50
- C. 60
- D. 70

## Mathematics

### Class 7 – Chapter 7

### Congruency in Triangles

Given below are two triangles ACB and FGE. AD is the perpendicular bisector of the side CB and FH is the perpendicular bisector of the side GE

SAS21M07S0701

- 1 Is the line segment AB equal to EG? Give reasons.

---

---

Raghavan shows that two triangles are congruent using the steps below.

$$AC = FG$$

$$\angle C = \angle G$$

$$CD = GH$$

Thus,  $\Delta ACD \cong \Delta FGH$

SAS21M07S0702

- 2 Which criterion was used by Raghavan to prove the congruence of the two triangles?

- A. SSS
- B. SAS
- C. ASA
- D. RHS

SAS21M07S0703

- 3 Aditi claims that  $\Delta ABC$  is an equilateral triangle.  
 Is she correct? Justify your answer.
- 
- 

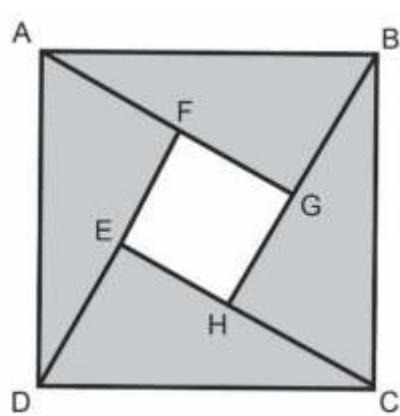

SAS21M07S0704

- 4 Rohit claims that ' $\Delta ABC$  can be proved to be congruent to  $\Delta FGE$  by using all the four congruence criteria.'  
 Is his claim valid? Give reasons.
- 
- 

SAS21M07S0705

- 5 Two triangles are congruent when their three corresponding sides are of equal measure. Is it the same when the three corresponding angles are equal? Give reasons.
- 
- 

ABCD and EFGH are squares.

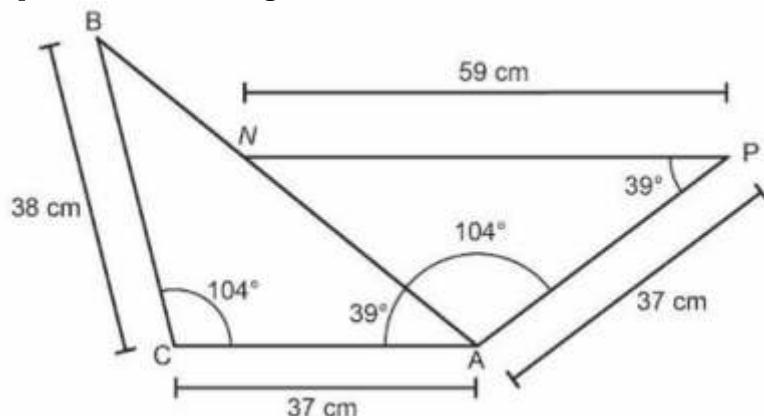

SAS21M07S0706

- 6 Which congruency statement is not true?

- A.  $\Delta AGB \cong \Delta BHC$
- B.  $\Delta BHC \cong \Delta CED$
- C.  $\Delta CED \cong \Delta DFA$
- D.  $\Delta DFA \cong \Delta DEF$

The figure below represents two triangles ACB and PAN.

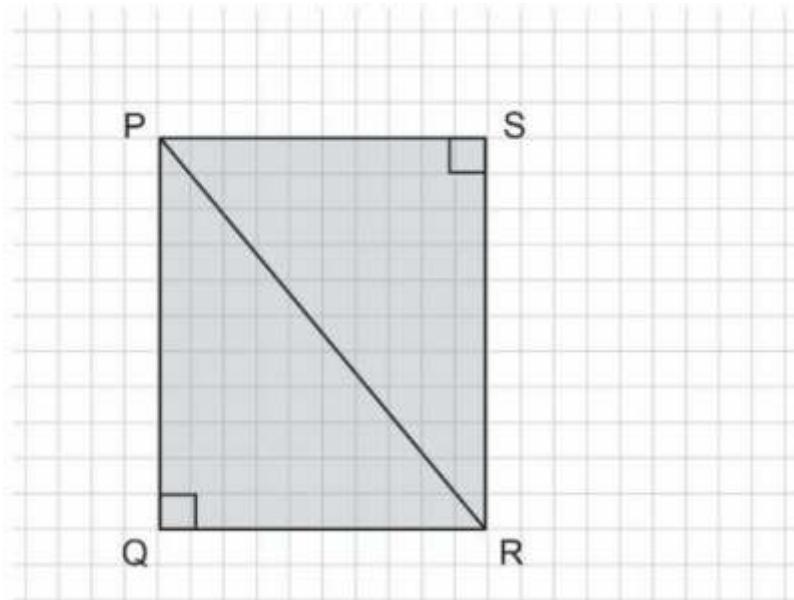

SAS21M07S0707

7 By which congruence criterion is  $\Delta ACB$  congruent to  $\Delta PAN$ ?

- A. SSS
- B. SAS
- C. ASA
- D. RHS

Gutam draws two triangles PQR and PSR on a grid.

Each block on the grid represents one unit.

SAS21M07S0708

8 Are the two triangles congruent? Give reasons.

---

---

SAS21M07S0709

9 Which angle is equal to  $\angle PSR$ ?

- A.  $\angle PRQ$
- B.  $\angle PQR$
- C.  $\angle SRP$
- D.  $\angle SPR$

SAS21M07S0710

10 Which of the following line segments is equal to PS?

- A. QR
- B. PQ
- C. SR
- D. PR

### Class 7 – Chapter 8

### Comparing Quantities

Liquefied gas is a type of fuel used in cars and other vehicles. After petrol and diesel, liquefied gas is the third most popular fuel in the world. For the past two decades, it has been used as an alternative for petrol worldwide.

SAS21M07N0801

- 1 In the year 2019, worldwide consumption of liquefied gas was 27 million tonnes, whereas in India, its consumption was 0.42 million tonnes.  
What is the ratio of consumption of liquefied gas in India to worldwide?

---

---

SAS21M07N0802

- 2 In the year 2019, India consumed 28.3 million tonnes of petrol and 83.5 million tonnes of diesel.  
Is it correct to say that in the year 2019, the consumption of diesel was less than three times the consumption of petrol in India? Give reasons.

---

---

SAS21M07N0803

- 3 The cost of per litre petrol in New Delhi on 11 August, 2021 was Rs. 101.84. On the same day, the cost of one litre of liquefied gas was 60% less than the cost of petrol in New Delhi.  
Which of the following could be the cost of liquefied gas?

- A. Rs. 38.56
- B. Rs. 61.27
- C. Rs. 142.58
- D. Rs. 162.94

SAS21M07N0804

- 4 Liquefied gas contains gases like butane and propane. The percentage of both butane and propane in liquefied gas varies from 100% of propane to 20% of propane.  
One litre of liquefied gas weighs 510 g in which the mass of propane gas is 357 g.

Which of the following shows the percentage of propane gas present in 1 L of the liquefied gas?

- A. 20%
- B. 30%
- C. 70%
- D. 100%

SAS21M07N0805

- 5 Parvez wants to use liquefied gas in his car. He needs to install a liquefied gas kit in his car. The kit costs Rs. 50,000.  
To install the kit, he paid Rs. 5000 and has availed a loan of Rs. 45,000 at a rate of 10% per annum using simple interest. The repayment period for him is 1 yr.  
What is the total sum of money (in rupees) Parvez has to pay in 1 yr?
- 
- 

Online shopping has increased in the past few years. There are several apps and websites available which allow buyers to purchase goods online.

SAS21M07N0806

- 6 In a survey, every three out five people prefer online shopping over shopping from the local market.  
What percentage of people in the survey prefer shopping from the local market?
- 
- 

SAS21M07N0807

- 7 The marked price of a hot water geyser is Rs. 9000. It is available at a discounted price for Rs. 7560 on an online shopping website.  
What is the percent reduction in the cost of the geyser?
- 
-

SAS21M07N0808

- 8 Misha spent Rs. 15,000 for groceries and home products last month. She shopped online as well as from the local market. The amount of money she spent on online shopping is three times the amount she spent on shopping from the local market.  
What percentage of money did Misha spend by shopping online?

---

---

SAS21M07N0809

- 9 Nisha purchased 20 pairs of earrings for Rs. 200. She pasted colourful beads on the earrings with glue. The beads cost her Rs. 30 and a tube of glue to stick the beads costs Rs. 20.  
She sold each pair of earrings for Rs. 40.  
After selling all the earrings, how many rupees did she make as profit?

- A. Rs. 250
- B. Rs. 550
- C. Rs. 600
- D. Rs. 800

SAS21M07N0810

- 10 What percentage profit did Nisha make?

- A. 68.75%
- B. 220%
- C. 320%
- D. 1375%

### Rational Numbers

Different websites offer the same phone at different prices. A Rs. 15,000 mobile phone is available at  $\frac{4}{5}$  of its marked price on Website A. Website A gives an additional discount equivalent to  $\frac{1}{10}$  of the phone price at check out. Website B offers the same mobile phone model at  $\frac{2}{5}$  of its price with no further discount at checkout.

SAS21M07N0901

- 1 At what price is the mobile phone offered by Website A?

---

---

SAS21M07N0902

- 2 At what fraction of the original price is the phone available at check out on Website A?

- A.  $\frac{3}{10}$
- B.  $\frac{7}{10}$
- C.  $\frac{5}{15}$
- D.  $\frac{4}{50}$

SAS21M07N0903

- 3 Which website sells the phone at a more economical price? Give reasons.

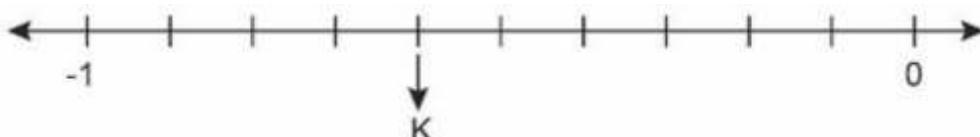

---

---

SAS21M07N0904

- 4 In which of the following options does Point K represent  $-\frac{1}{5}$  on the number line?

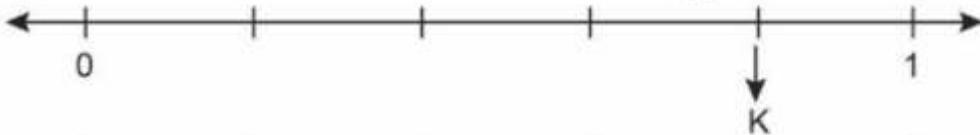

A.

B.

C.

D.

SAS21M07N0905

- 5 The product of a negative rational number with its multiplicative inverse is  $-1$ .  
 Do you agree? Give examples to support your answer.
- 
- 

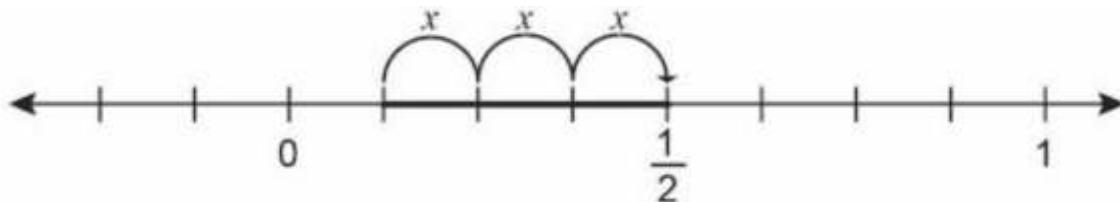

SAS21M07N0906

- 6 Addition of a rational number to its additive inverse results in 0.  
 Is this statement true for all rational numbers? Give examples to support your answer.
- 
- 

SAS21M07N0907

- 7 Find three rational numbers between 3 and 4.
- 
-

A mathematical operation of rational numbers is shown on the number line.

SAS21M07N0908

8 Which operation is it?

- A. Addition
- B. Subtraction
- C. Multiplication
- D. Division

SAS21M07N0909

9 Which number will come in place of  $x$ ?

---

---

SAS21M07N0910

10 Solve:  $\frac{7}{10}, \frac{5}{10}$

- A.  $\frac{5}{7}$
- B.  $\frac{2}{10}$
- C.  $\frac{7}{5}$
- D.  $\frac{35}{135}$

### Class 7 – Chapter 10

### Practical Geometry

In the figure below the line  $l$ , is parallel to the line  $m$ .

SAS21M07S1001

1 Which of the following statement is true for the lines  $l$  and  $m$ ?

- A. Line  $l$  never meets with line  $m$
- B. Lines  $l$  and  $m$  have common points
- C. Line  $l$  intersects line  $m$  perpendicularly
- D. Lines  $l$  and  $m$  cannot be intersected by one line

SAS21M07S1002

2 Name the line which cuts line  $l$ .

---

---

SAS21M07S1003

3 Which line is intersected the most number of times?

- A.  $l$
- B.  $m$
- C.  $n$
- D.  $p$

SAS21M07S1004

**4** Which pair of angles are alternate interior angles?

- A.  $\angle ABC$  and  $\angle BCD$
- B.  $\angle BCD$  and  $\angle DCF$
- C.  $\angle HEC$  and  $\angle BCD$
- D.  $\angle ABC$  and  $\angle CFG$

SAS21M07S1005

**5** Which of the given equalities will always be true?

- A.  $\angle HEC = \angle CFG$
- B.  $\angle HEC = \angle BCD$
- C.  $\angle BCD = \angle CFG$
- D.  $\angle BCD = \angle ABC$

Rohit draws a triangle as described below using some given parameters.

Step 1: He draws a line segment AB of the given length.

Step 2: He draws a long arc using a given radius from A.

Step 3: He draws another arc from B with a given radius cutting the arc drawn in step 2.

Step 4: He joins the point of intersection C of the arcs with points A and B.

SAS21M07S1006

**6** What parameters were given to Rohit?

- A. The three side lengths were given
- B. The two angles measure and one side length were given
- C. The two side lengths and one angle measure were given
- D. The two side lengths and right angle specifications were given

SAS21M07S1007

**7** Anshu says 'Rohit uses Angle-Side-Angle criterion for construction of triangle ABC'. Is Anshu correct? Justify your answer.  
  
\_\_\_\_\_  
  
\_\_\_\_\_

SAS21M07S1008

**8** Rohit tried to construct triangle LMN, with  $MN = 6\text{ cm}$ ,  $LN = 10\text{ cm}$  and  $MN = 4\text{ cm}$ . He was not successful in constructing the triangle.  
What could be the reason for his failure?  
  
\_\_\_\_\_  
  
\_\_\_\_\_

SAS21M07S1009

- 9 Saloni constructed a triangle ABC with angle measures as  $45^\circ$ ,  $50^\circ$ , and  $85^\circ$ . Sunita constructed another triangle PQR with the same angle measures.  
Is it necessary that the side lengths of triangles ABC and PQR would also be the same? Justify your answer.

---

---

SAS21M07S1010

- 10 Which of the following criteria cannot be used to construct an equilateral triangle?
- A. Side-Side-Side
  - B. Side-Angle-Side
  - C. Angle-Side-Angle
  - D. Right angle-Hypotenuse - Side

### Class 7 – Chapter 11

### Perimeter and Area

Given below is the map of a society park.

The park has four grass patches of equal area.

The dotted line represents the path for running and jogging.

SAS21M07S1101

1 What is the perimeter of grass patch 1?

- A. 191 m
- B. 382 m
- C. 800 m
- D. 1528 m

SAS21M07S1102

2 What is the area of the running and jogging path?

- A.  $3519 \text{ m}^2$
- B.  $3600 \text{ m}^2$
- C.  $8495.25 \text{ m}^2$
- D.  $37,500 \text{ m}^2$

## Curriculum Aligned Competency Based Test Items

 Mathematics  
 Class 7 – Chapter 11

SAS21M07S1103

- 3** Two sitting benches are installed in the grass patches. The seat of each bench is of the length 1.2 m and width 0.7 m. How much area (in  $\text{m}^2$ ) is reserved for sitting in the park?

- A. 0.84
- B. 1.68
- C. 3.36
- D. 6.72

SAS21M07S1104

- 4** The patch 2 is divided diagonally into two triangles of equal areas. Tulips are planted in one triangular area. What is the area in which the tulips are planted?

- A.  $2831.75 \text{ m}^2$
- B.  $4247.625 \text{ m}^2$
- C.  $8495.25 \text{ m}^2$
- D.  $18,750 \text{ m}^2$

SAS21M07S1105

- 5** Inside the grass patch 4, lily flowers are planted to make a 1.25 m wide bed. The length of the bed is same as the length of the patch. What is the area (in  $\text{m}^2$  covered by lillies)?

- A. 88.125
- B. 150.625
- C. 243.5
- D. 8645.875

SAS21M07S1106

- 6** Swings are installed for kids at the centre of grass patch 3. The area reserved for the swings is square in shape with a width of 40 m. What is the remaining area of grass patch 3 after the swing installation?
- 
- 

SAS21M07S1107

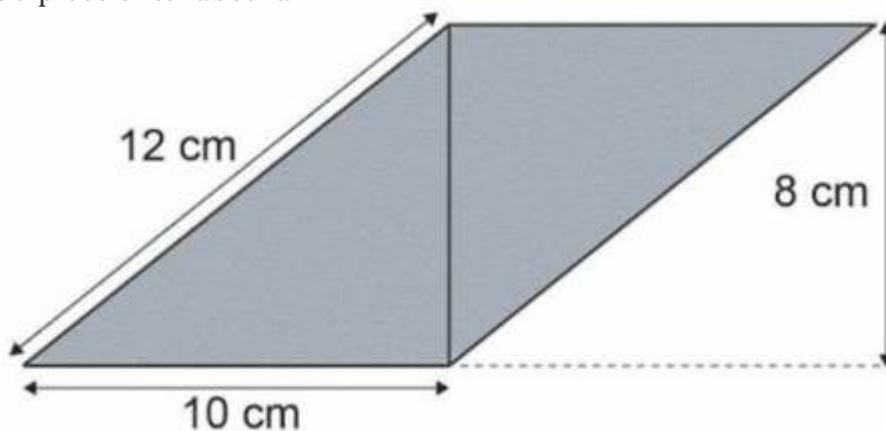

- 7** One room in Joseph's house has a circular glass roof. The diameter of the roof is 2.8 m. What is the area of the glass roof?
- 
-

SAS21M07S1108

- 8 The circular frame of the glass roof is made of wire. What is the length of the wire?

- A. 6.16 m
- B. 8.8 m
- C. 17.6 m
- D. 12.32 m

Given below is a piece of cardboard.

SAS21M07S1109

- 9 What is its area?

---

---

SAS21M07S1110

- 10 Jatin placed another cardboard of same size along the 12 cm long edge. . What is the perimeter of the combined shape?

### Class 7 – Chapter 12

### Algebraic Expressions

The costs of entry tickets to an amusement park are different for adults and children. An adult ticket costs Rs 800 and a child ticket costs Rs 500.

SAS21M07C1201

- 1 On Sunday,  $x$  adult tickets and  $y$  child tickets were sold. Which of the following expressions show the money collected through the ticket sale?
- $1300x$
  - $800x + 500x$
  - $800x + 500y$
  - $(800 + 500)(x + y)$

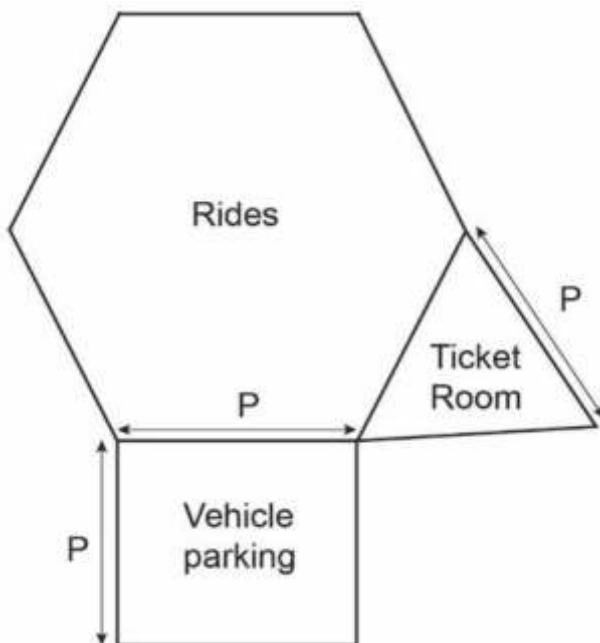

SAS21M07C1202

- 2 A car parking ticket at the amusement park costs Rs 150 on Saturdays and Sundays and Rs 100 on weekdays. In a month with 5 Saturdays and 4 Sundays, the total parking ticket sale was worth Rs 250,000. Write an equation to represent the situation algebraically.
- 
- 

SAS21M07C1203

- 3 On Monday, the number of adults who visited the amusement park was the square of the number of children who visited. How much money was collected by selling entry tickets on Monday?
- $x^2$
  - $800x^2 + 500x$
  - $800x + 500x^2$
  - $1300(x + x^2)$

The amusement park is divided into three regular-shaped sections for rides, ticket room and car parking respectively.

SAS21M07C1204

4 What is the perimeter of the amusement park?

- A.  $6P$
- B.  $8P$
- C.  $9P$
- D.  $11P$

SAS21M07C1205

5 What area of the amusement park is occupied by the parking space?

---

---

Riya wrote an algebraic expression.

$$56t^3 + 12t^2 + 6t + 16s^2 + 2s + 106$$

SAS21M07C1206

6 Which of the following terms has 6 as the coefficient?

- A.  $s$
- B.  $s^2$
- C.  $t$
- D.  $t^3$

SAS21M07C1207

- 7 Write the factors of  $56t^3$ .

---

---

SAS21M07C1208

- 8 What is the type of the algebraic expression written by Riya?

- A. Monomial
- B. Binomial
- C. Trinomial
- D. Polynomial

SAS21M07C1209

- 9 Riya said, "There are two like terms in the algebraic expression." Is Riya correct? Give reason.

---

---

SAS21M07C1210

- 10 Riya added an algebraic expression to  $56t^3 + 12t^2 + 6t + 16s^2 + 2s + 106$ . The resultant expression is  $14t^2 + 7t + 9s$ . Which of the following algebraic expressions did she add?

- A.  $56t^3 + 2t^2 + t - 16s^2 + 7s + 106$
- B.  $-56t^3 + 2t^2 + t - 16s^2 + 7s - 106$
- C.  $-56t^3 - 2t^2 - t - 16s^2 - 7s - 106$
- D.  $56t^3 + 26t^2 + 11t + 16s^2 + 11s + 106$

### Class 7 – Chapter 13

### Exponents and Power

Nanoscience is the study of structures and materials of an ultra-small scale. The widely used units to measure length in nanoscience are nanometre and micrometre. The relations between different units of length are given below.

$$\begin{aligned}10^3 \text{ nanometre (nm)} &= 1 \text{ micrometre (\mu m)} \\10^6 \text{ nanometre (nm)} &= 1 \text{ millimetre (mm)} \\10^7 \text{ nanometre (nm)} &= 1 \text{ centimetre (cm)} \\10^9 \text{ nanometre (nm)} &= 1 \text{ meter (m)}\end{aligned}$$

SAS21M07N1301

- 1 Electron microscopes are used to see very small particles. These microscopes can enlarge an image up to  $10^6$  times. A laboratory developed a switch that is 1 nanometre wide. How wide will the switch look when seen under an electron microscope?
- A. 1 nanometre  
B. 1 micrometre  
C. 1 millimetre  
D. 1 centimetre

SAS21M07N1302

- 2 Asha measures the thickness of one sheet of newspaper. A stack of 100 sheets of newspaper is 1 cm thick. What would be the thickness of the newspaper when expressed in nanometres?
- 
-

SAS21M07N1303

- 3** Scalpel is an instrument used by surgeons in surgery. During an experiment it was found that the size of tip of scalpel can affect the recovery rates of patients.

Two scalpels of tip sizes 0.8 micrometre and 12.5 micrometre were tested.

Patients on whom the scalpel with tip radius 0.8 micrometre was used healed faster.

What is the difference between the radii of the two tips in millimetres?

- A.  $1.6 \times 10^{-4}$
- B.  $0.8 \times 10^{-3}$
- C.  $1.17 \times 10^{-2}$
- D.  $4.5 \times 10^{-2}$

SAS21M07N1304

- 4** Deoxyribonucleic acid (DNA) is found in every cell of almost all living beings including humans. One strand of human DNA is 2.5 nanometres in diameter. What is the diameter of the strand of DNA in meters?

- A.  $2.5 \times 10^{-10}$
- B.  $1 \times 10^{-9}$
- C.  $2.5 \times 10^{-9}$
- D.  $2.5 \times 10^9$

SAS21M07N1305

- 5** Research says, "Human fingernail grows one nanometre in one second." What would be the approximate growth of the fingernail (in cm) in 24 hours?

- A.  $8.64 \times 10^{-3}$
- B.  $8.64 \times 10^{-2}$
- C.  $8.64 \times 10^3$
- D.  $8.64 \times 10^{11}$

SAS21M07N1306

- 6** Rajat claims, "A negative number raised to a power is always less than the number itself" Give an example that proves that Rajat is incorrect.
- 
- 

SAS21M07N1307

- 7** Simplify the following.  
 $\{(92)^4 \times 9^5\} \div 9^8$
- 
-

SAS21M07N1308

- 8 Assume  $x$  and  $y$  are two negative numbers. ‘The result of the multiplication of  $x$  and  $y$  with the same positive power is greater than the multiplication of  $x$  and  $y$  with the same negative power.’ Give an example to support this statement.

---

---

A light-year is the distance light travels in one Earth year. For objects in space, we use light-years to describe the distance between two heavenly bodies.  
One light-year is approximately 9,500,000,000,000 km.

SAS21M07N1309

- 9 Express one light year in metres.

---

---

SAS21M07N1310

- 10 Astronomers are observing a star that is 5 light-years away from the Earth. How far is the star from the Earth in kilometres?

- A.  $4.75 \times 10^{11}$
- B.  $47.5 \times 10^{11}$
- C.  $4.75 \times 10^{12}$
- D.  $4.75 \times 10^{13}$

### Symmetry

The picture shows a girl and her reflection in a mirror.

SAS21M07S1401

- 1 Can you draw a line of symmetry on this picture? Mention Yes or No. Justify your choice.

---

---

SAS21M07S1402

- 2 The girl has her right hand raised. Why does it look like her left hand in the mirror image?

---

---

SAS21M07S1403

- 3** Points P, Q, R and S are marked on the girl and their mirror reflections P', Q', R' and S' are marked on the image. Which point and its image in the mirror have the greatest distance between them?
- P and Q
  - Q and Q'
  - R and R'
  - P' and S'

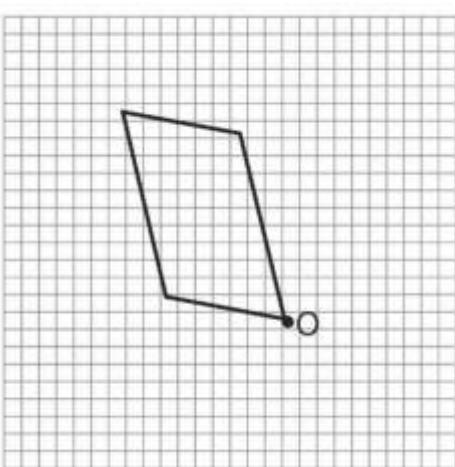

SAS21M07S1404

- 4** Which type of symmetry does the picture show?
- Line symmetry
  - Point symmetry
  - Rotation symmetry
  - Reflection symmetry

SAS21M07S1405

- 5** In the above picture, XYZW is a mirror. Why does it produce a symmetric image? Give your explanation using the points shown in the image.
- 
- 

A quadrilateral is drawn on a square grid. O is the dot marked on one vertex of the quadrilateral.

SAS21M07S1406

- 6** How many lines of symmetry are there in this quadrilateral?
- 0
  - 1
  - 2
  - 4

SAS21M07S1407

- 7 Draw three more congruent quadrilaterals around O so that the complete figure has rotation symmetry of order four.

---

---

SAS21M07S1408

- 8 Which of the following statements about a parallelogram's symmetry is true?

- A. A parallelogram has neither a line of symmetry nor rotational symmetry.
- B. A parallelogram has a line of symmetry but no rotational symmetry.
- C. A parallelogram has a point of symmetry and rotational symmetry.
- D. A parallelogram has rotational symmetry but no point or line symmetry.

SAS21M07S1409

- 9 Jyoti claims that rotational symmetry of order 1 implies no rotational symmetry. Do you agree or disagree with her claim? Give reasons.

---

---

Here is a picture of a car wheel.

SAS21M07S1410

- 10 What is the order of rotational symmetry for this wheel?

---

---

### Visualising Solid Shapes

Raveena gives toy erasers as return gifts for her birthday. One of the erasers is shown below.

SAS21M07S1501

1 How many edges are there?

- A. 17
- B. 20
- C. 25
- D. 30

SAS21M07S1502

2 Raveena placed one eraser exactly above another. She claims that the number of faces in the combined shape is the same as that of the single eraser. Do you agree? Explain your answer.

An ice-cream cart has an ice-candy drawn on all sides, except the top and the bottom.

SAS21M07S1503

3 Which geometric shape does the ice-cream container resemble?

- A. Cuboid
- B. Cylinder
- C. Cone
- D. Pyramid

SAS21M07S1504

4 How many ice-candies are drawn on the cart?

- A. 1
- B. 2
- C. 4
- D. 6

Jayesh chopped carrots this way.

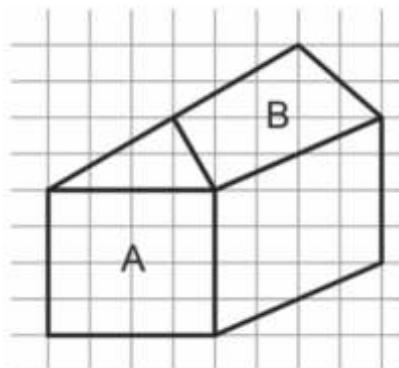

SAS21M07S1505

5 Which geometric shape do the chopped carrots resemble? How many edges does one piece have?

---

---

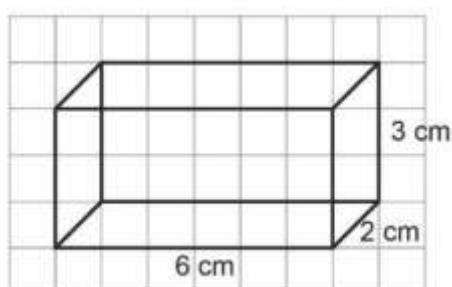

A sketch of a house on a grid is shown below.

SAS21M07S1506

- 6    1 block represents one square unit.  
 Is face A identical to face B? Explain your answer.

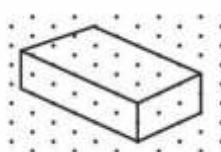

A cuboid with given sides is shown below.

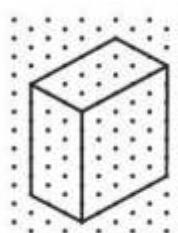

SAS21M07S1507

- 7    Which of the following can be another way of representing the cuboid?

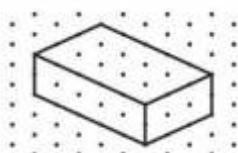

A.

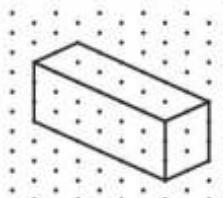

B.

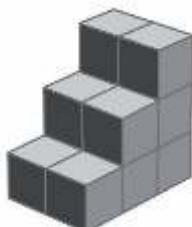

C.

D.

Rajat arranged some cubes as below.

SAS21M07S1508

**8** How many cubes did he use?

- A. 6
- B. 9
- C. 12
- D. 18

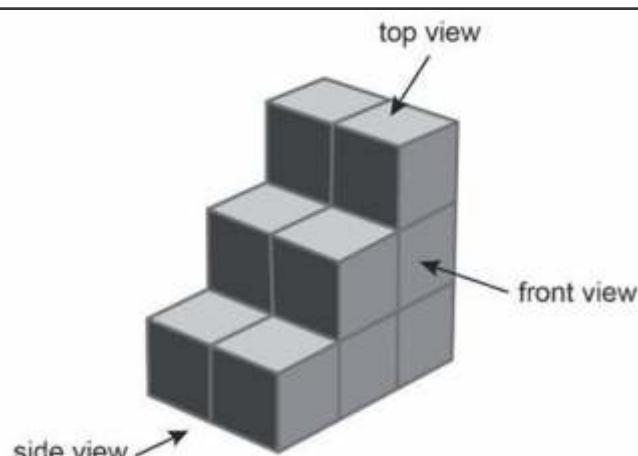

SAS21M07S1509

**9** “An equal number of cubes are seen in the top, front and side views in this cubical arrangement.” Is the statement correct? Explain your answer.

---

---

SAS21M07S1510

**10** Which of the following shows the side view of the arrangement?

- A.
- B.
- C.
- D.

<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07Q0103
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Application of Integers)
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Open Constructed Response
<b>Full Credit (Full Score)</b>	Provides any combination that gives a score more than 10 in the two shots  For example: • Mariya had to score 8 in her fourth shot and 2 in her fifth shot. • Mariya had to score 6 in both shots.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07Q0104
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Application of Integers)
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Team Alpha. They got 30 more penalty points.
<b>Partial Credit (Partial Score)</b>	Either Team Alpha or 30 points
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07Q0105
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Properties of Addition and Subtraction of Integers)
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. $6 \times [3 \times (-10)] + 4 \times (5 \times 20) + 2 \times (2 \times 20)$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07Q0106
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Application of Integers)
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Writes 'Yes' with valid justification <ul style="list-style-type: none"> <li>• Yes, both teams can score equal. This can happen if Team A falls once and team B falls twice.</li> <li>• Yes, both Teams can score equal. This can happen if Team A falls twice and Team B falls thrice.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07Q0107
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Application of Integers)
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	In Archery and Jumping Jack
<b>Partial Credit (Partial Score)</b>	Either Archery or Jumping Jack
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07Q0108
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Application of Integers)
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. $-24^{\circ}\text{C}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07Q0109
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Application of Integers)
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Sunday, Monday, Wednesday, and Saturday
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07Q0110
<b>Grade &amp; Chapter Name</b>	Grade 7   Integers
<b>Concept   Sub-concept</b>	Numbers   Integers (Properties of Addition and Subtraction of Integers)
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	$9^{\circ}\text{C}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07Q0201
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	1095.50 or ₹ 1095.50
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07Q0202
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. ₹ 1529.50
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07Q0203
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	1 or 1 glass
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07Q0204
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	44 or 44 units
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07Q0205
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. 20
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07Q0206
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Mentions 'Dress' with valid justification <ul style="list-style-type: none"> <li>• She will get a dress because she completed 37 levels which is more than <math>\frac{3}{5}</math> but less than <math>\frac{4}{5}</math> of the game levels.</li> <li>• She will get a dress as she completed more than <math>\frac{3}{5}</math> but less than <math>\frac{4}{5}</math> of the game levels.</li> <li>• She will get a dress. 37 out of 50 is more than 30 out of 50 but less than 40 out of 50.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07Q0207
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Gold or Gold team
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07Q0208
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	16.66 or 16.66 % 17 or 17 %
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07Q0209
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	8 or 8%
<b>Partial Credit (Partial Score)</b>	8.33 or 8.33%
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07Q0210
<b>Grade &amp; Chapter Name</b>	Grade 7   Fractions and Decimals
<b>Concept   Sub-concept</b>	Numbers   Multiplication and Division of Fraction
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	15 or 15 g
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07D0301
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Yes, with valid reasoning. • Yes, according to the table 9.98 million users are active users. 9.98 is nearly 50% of 20 million. • Yes, around 10 million people play games, which is 50% of the total population.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07D0302
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	25 25%
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07D0303
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	A. KC
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07D0304
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Formulate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	SN and HC
<b>Partial Credit (Partial Score)</b>	Either SN or HC
<b>No Credit (No Score)</b>	Any other response or missing response
<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07D0305
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. 8.557
<b>No Credit (No Score)</b>	Any other response or missing response
<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07D0306
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. 50
<b>No Credit (No Score)</b>	Any other response or missing response
<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07D0307
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, reasoning involves comparison of mean and median of Mary's score. <ul style="list-style-type: none"> <li>• No, the mean and median of Mary's score are not equal. Mean score is 43.6, whereas median score is 46.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07D0308
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	A. Increases by 1.13
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07D0309
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)

<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. $\frac{1}{2}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07D0310
<b>Grade &amp; Chapter Name</b>	Grade 7   Data Handling
<b>Concept   Sub-concept</b>	Statistics   Measures of Central Tendency (Mean, Median, Mode)
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. $\frac{1}{2}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07C0401
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Introduction to Equations
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. 10
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07C0402
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Introduction to Equations
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	1440 1440 points
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07C0403
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Introduction to Equations
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Raghav, reasoning involves comparison of number of matches played by them. • Raghav, as he played 110 matches while Drishti played 56 matches.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07C0404
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Introduction to Equations
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, justification involves the points deducted for a loss. • No, score depends on the number of wins and losses not on the total number of matches played. • No, if you lose more than you win, your score will be less.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07C0405
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Introduction to Equations
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	44 or 44 hurdles
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07C0406
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Introduction to Equations
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, justification involves independence of method and solution or examples of solving an equation by different methods. • No, because the same solution can be obtained by multiple methods. • $6x + 8 = 38$ can be solved by transposing the numbers or by adding/subtracting same numbers from both sides of the equation.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07C0407
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Equations (Solving an Equation)
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. $5 + 4x = 9$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07C0408
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Equations (Solving an Equation)
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. $6x + 4(x - 5) = 80$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07C0409
<b>Grade &amp; Chapter Name</b>	Grade 7   Simple Equations
<b>Concept   Sub-concept</b>	Algebra   Equations (Solving an Equation)
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	A. 10
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Full Credit (Full Score)</b>	C. $3x + 1 = 13$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07S0501
<b>Grade &amp; Chapter Name</b>	Grade 7   Lines and Angles
<b>Concept   Sub-concept</b>	Geometry/Parallel Lines   Corresponding Angles
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. Corresponding angles
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07S0502
<b>Grade &amp; Chapter Name</b>	Grade 7   Lines and Angles
<b>Concept   Sub-concept</b>	Geometry/Parallel Lines   Angle Sum Property
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. $60^\circ$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07S0503
<b>Grade &amp; Chapter Name</b>	Grade 7   Lines and Angles
<b>Concept   Sub-concept</b>	Geometry/Parallel Lines   Angle Sum Property
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. $90^\circ$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07S0504
<b>Grade &amp; Chapter Name</b>	Grade 7   Lines and Angles
<b>Concept   Sub-concept</b>	Geometry   Parallel Lines and a Transversal
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Reasoning involves the condition: When two lines are perpendicular to a line, they are parallel to each other. <ul style="list-style-type: none"> <li>• SP and QR are perpendicular to AD, so they are parallel to each other.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07S0505
<b>Grade &amp; Chapter Name</b>	Grade 7   Lines and Angles
<b>Concept   Sub-concept</b>	Geometry   Parallel Lines and a Transversal
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Yes, reasoning involves the definition of transversal line. • Yes, DF is transversal to KL and MN because it cuts the parallel lines KL and MN. • Yes, DF is transversal to KL and MN because it intersects two lines at distinct points.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07S0506
<b>Grade &amp; Chapter Name</b>	Grade 7   Lines and Angles
<b>Concept   Sub-concept</b>	Geometry   Parallel Lines and a Transversal

<b>Grade &amp; Chapter Name</b>	Grade 7   The Triangle and its Properties
<b>Concept   Sub-concept</b>	Geometry/Triangle   Sum of the Lengths of a Triangle
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Accept answers in which differentiation between median and altitude is evident. <ul style="list-style-type: none"> <li>• Anshu marked the altitude of the side BC, while Radhika marked the median of the side BC.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07S0604
<b>Grade &amp; Chapter Name</b>	Grade 7   The Triangle and its Properties
<b>Concept   Sub-concept</b>	Geometry/Triangle   Sum of the Lengths of a Triangle
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	The explanation involves the angle sum property of a triangle. • An exterior angle is the sum of its opposite interior angles. If the sum of two angles is $180^\circ$ , the measure of the third angle will be $0^\circ$ . Thus no triangle will be formed.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Accept any of the two lengths, either 48 or 55 <ul style="list-style-type: none"><li>• 48 cm</li><li>• 55 cm</li></ul>
<b>No Credit (No Score)</b>	Any other response or missing response
<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07S0609
<b>Grade &amp; Chapter Name</b>	Grade 7   The Triangle and its Properties
<b>Concept   Sub-concept</b>	Geometry/Triangle   Sum of the Lengths of a Triangle
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	30 30°
<b>No Credit (No Score)</b>	Any other response or missing response
<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07S0610
<b>Grade &amp; Chapter Name</b>	Grade 7   The Triangle and its Properties
<b>Concept   Sub-concept</b>	Geometry/Triangle   Sum of the Lengths of a Triangle
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. 50
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07S0701
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Congruence among Line Segment
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Yes, with valid reasoning. • Yes, line segment AB is congruent to line segment EG because one can be superimposed on the other. • Yes, the triangles are equilateral and with the same side length, hence they are equal.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07S0702
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Criteria for Congruence of Triangles
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. SAS
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07S0703
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Criteria for Congruence of Triangles
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Yes, with valid reasoning. • Yes, Aditi is correct. Since two sides are equal, it is an isosceles triangle. One angle is equal to $60^\circ$ , so the sum of the remaining equal angles is $120^\circ$ . Thus, all angles are $60^\circ$ each.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07S0704
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Criteria for Congruence of Triangles
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, with valid reasoning. • No, Rohit's claim is not valid because $\Delta ACB$ can be proved congruent to $\Delta FGE$ by SSS, SAS and ASA congruence criteria, but not by RHS congruence criteria.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07S0705
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Criteria for Congruence of Triangles
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, with valid reasoning. • No, two triangles are not said to be congruent if all three angles of one triangle are congruent to corresponding angles of another because they may have different side length. • No, two triangles are not said to be congruent if all three angles of one triangle are congruent to corresponding angles of another because they may not superimpose each other.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07S0706
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Criteria for Congruence of Triangles
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. $\Delta DFA \cong \Delta DEF$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07S0707
<b>Grade &amp; Chapter Name</b>	Grade 7   Congruence of Triangles
<b>Concept   Sub-concept</b>	Triangles   Criteria for Congruence of Triangles
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question

<b>Full Credit (Full Score)</b>	B. $800x^2 + 500x$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07C1204
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Using Algebraic Expressions – Formulas and Rules
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	B. 11P
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07C1205
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Using Algebraic Expressions – Formulas and Rules
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	P <sup>2</sup>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07C1206
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Coefficient in Algebraic Expressions
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. t
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07C1207
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Factors of Algebraic Expressions
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	$56 \times t \times t \times t$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07C1208
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Types of Algebraic Expressions
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. Polynomial
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07C1209
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Like and Unlike Terms
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, with valid reasoning. <ul style="list-style-type: none"> <li>• No, Riya is not correct, because there are no like terms in the given algebraic expression.</li> <li>• No, Riya is not correct, because there are only unlike terms in the given algebraic expression.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07C1210
<b>Grade &amp; Chapter Name</b>	Grade 7   Algebraic Expressions
<b>Concept   Sub-concept</b>	Algebra   Adding and Subtracting of Algebraic Expressions
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	Option B. $-56t^3 + 2t^2 + t - 16s^2 + 7s - 106$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07N1301
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. 1 millimetre
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07N1302
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	100000 $10^5$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07N1303
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. $1.17 \times 10^{-2}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07N1304
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. $2.5 \times 10^{-9}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07N1305
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	$A. 8.64 \times 10^{-3}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07N1306
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Open Constructed Response
<b>Full Credit (Full Score)</b>	The example must contain an even exponent of a negative number $(-2)^4 = 16; -2 < 16$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07N1307
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	$9^5$ $9 \times 9 \times 9 \times 9 \times 9$ 59049
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07N1308
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Open Constructed Response
<b>Full Credit (Full Score)</b>	<p>Gives example for both cases.          Let say <math>x = -2</math> and <math>y = -3</math>.</p> <p>Case 1: <math>(-2)^2 \times (-3)^2 = 6^2 = 36</math></p> <p>Case 2: <math>(-2)^{-2} \times (-3)^{-2} = 6^{-2} = \frac{1}{36}</math></p> <p>And <math>\frac{1}{36} &lt; 36</math></p>
<b>Partial Credit (Partial Score)</b>	<p>Gives example for one case (either case 1 or case 2)</p> <p>Either</p> <p>Case 1: <math>(-2)^2 \times (-3)^2 = 6^2 = 36</math></p> <p>Or</p> <p>Case 2: <math>(-2)^{-2} \times (-3)^{-2} = 6^{-2} = \frac{1}{36}</math></p>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07N1309
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Formulate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	<p>9,500,000,000,000,000</p> <p><math>9.5 \times 10^{15}</math></p> <p><math>95 \times 10^{14}</math></p>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07N1310
<b>Grade &amp; Chapter Name</b>	Grade 7   Exponents and Power
<b>Concept   Sub-concept</b>	Numbers   Exponential Forms of Numbers
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	Option D. $4.75 \times 10^{13}$
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07S1401
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Line Symmetry
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No with valid justification <ul style="list-style-type: none"> <li>• No, there is no fixed line which divides the figure into two identical parts.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

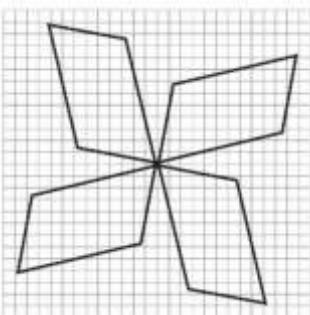

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07S1402
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Mirror Image
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Shows understanding of change in orientation in a mirror reflection Mentions change in lateral position when mirror reflections are used. <ul style="list-style-type: none"> <li>• In mirror reflection, left-right orientation changes</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07S1403
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Mirror Image
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. R and R'
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07S1404
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Types of Symmetry
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. Reflection Symmetry
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07S1405
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Reflection and Symmetry
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	A valid justification is provided <ul style="list-style-type: none"> <li>• The distance between a point on the object and a point on its image is the same from the mirror surface</li> <li>• Mirror produce point symmetry across its plane</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07S1406
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Reflection and Symmetry
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	A. 0
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07S1407
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Rotation Symmetry
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Draw parallelograms such that figure has four rotation symmetry. 
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07S1408
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Types of Symmetry
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. A parallelogram has a point of symmetry and rotational symmetry.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07S1409
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Rotational Symmetry
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Shows understanding of rotational symmetry • Agree, every object looks similar after $360^\circ$ rotation
<b>No Credit (No Score)</b>	Any other response or missing response

## Curriculum Aligned Competency Based Test Items

Mathematics  
Class 7 – Chapter 14

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07S1410
<b>Grade &amp; Chapter Name</b>	Grade 7   Symmetry
<b>Concept   Sub-concept</b>	Geometry   Rotational Symmetry
<b>Competency</b>	Employ
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	6
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 1
<b>Question Code</b>	SAS21M07S1501
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Faces, Edges And Vertices
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. 30
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 2
<b>Question Code</b>	SAS21M07S1502
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Faces, Edges And Vertices
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Yes, with valid explanation. • Yes, because the faces of the shape in both cases are 12.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 3
<b>Question Code</b>	SAS21M07S1503
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Faces, Edges And Vertices
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	Yes, with valid explanation. • Yes, because the faces of the shape in both cases are 12.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 4
<b>Question Code</b>	SAS21M07S1504
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Faces, Edges And Vertices
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. 4
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 5
<b>Question Code</b>	SAS21M07S1505
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Faces, Edges And Vertices
<b>Competency</b>	Formulate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Cuboid, 12 edges
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 6
<b>Question Code</b>	SAS21M07S1506
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Drawing Solids on a Flat Surface
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	No, with valid explanation <ul style="list-style-type: none"> <li>• No face A is not identical to face B because face A is a square and face B is a rectangle.</li> <li>• No face A is not identical to face B because area of both faces are not equal.</li> </ul>
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 7
<b>Question Code</b>	SAS21M07S1507
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Drawing Solids on a Flat Surface
<b>Competency</b>	Formulate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. Image
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 8
<b>Question Code</b>	SAS21M07S1508
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Visualising Solid Objects
<b>Competency</b>	Employ
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	C. 12
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 9
<b>Question Code</b>	SAS21M07S1509
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Shapes
<b>Concept   Sub-concept</b>	Geometry   Visualising Solid Objects
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Closed Constructed Response
<b>Full Credit (Full Score)</b>	Yes, with valid explanation • Yes, it is correct as top, front and side view have 6 cubes.
<b>No Credit (No Score)</b>	Any other response or missing response

<b>Item Number</b>	Question 10
<b>Question Code</b>	SAS21M07S1510
<b>Grade &amp; Chapter Name</b>	Grade 7   Visualising Solid Objects
<b>Concept   Sub-concept</b>	Geometry   Drawing Solids on a Flat Surface
<b>Competency</b>	Interpret & Evaluate
<b>Item Type</b>	Multiple Choice Question
<b>Full Credit (Full Score)</b>	D. Image
<b>No Credit (No Score)</b>	Any other response or missing response
